

DISH WASH AREA:

DISHES ARE EVERYONES RESPONSIBILITY – CUSTOMERS BEFORE DISHES!

- Rinse plates, cups and glasses and stack neatly in the dish rack or on the bench if it's busy.
- Soak cutlery in a container of clean warm soapy water and empty once the container is full – change the cutlery container water every few washes.
- Air Dry the dishes and put away in their appropriate homes – Never leave the wash room empty handed, always take clean dishes with you.

DISH WASH DRAINING TIMES

MID MORNING	AFTER LUNCH	MID AFTERNOON	CLOSE

HOW TO DRAIN AND REFILL DISHWASHER:

1. Ensure Dishwasher is off by turning dial to 0, and open the hood
2. Remove the metal racks and the filter strainers – spray with hot water to remove any food particles and scum
3. Remove the Plug to drain water and then wipe down and rinse the inside until thoroughly cleaned.
4. Inert the clean plug, filter strainers and metal racks back in place.
5. Close the Hood and turn the dial to the Number 2 position – the dishwasher will now begin the refill process.
